Mes premiers chiffres

Structurer
sa pensée

P.S

Mes premiers
chiffres

Mobiliser des symboles analogiques, verbaux pour communiquer des informations orales sur une quantité.

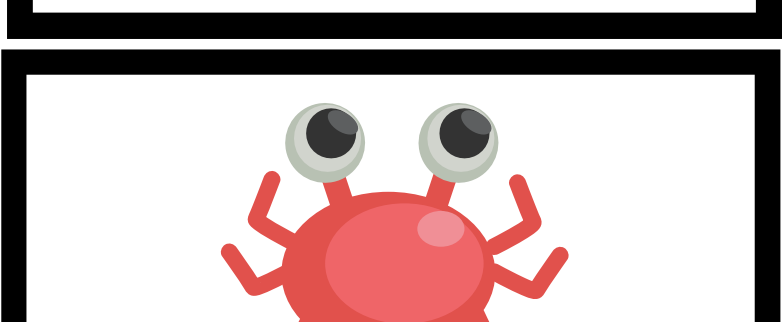

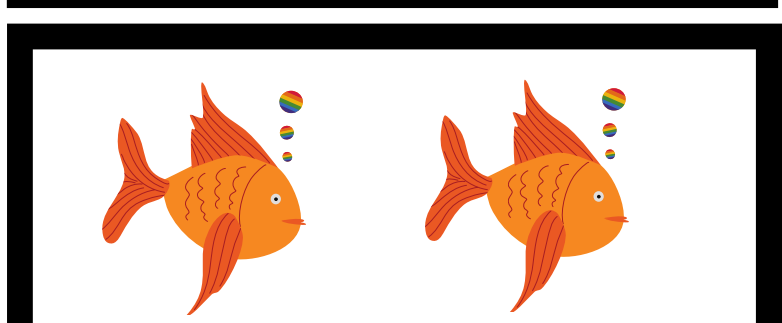

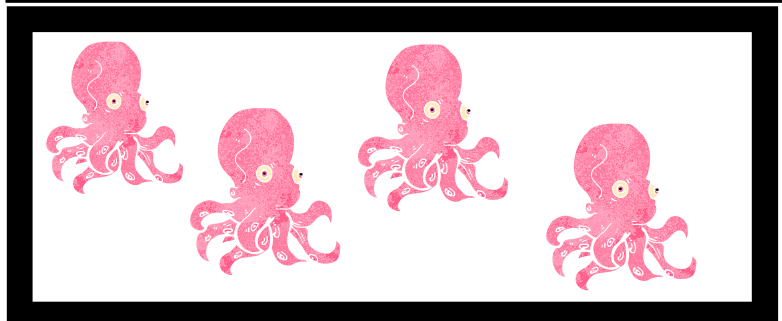

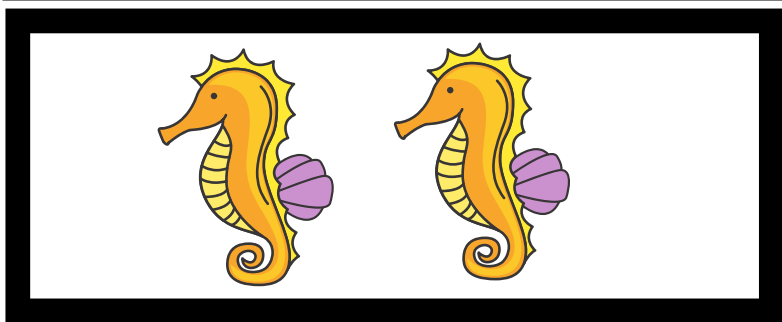

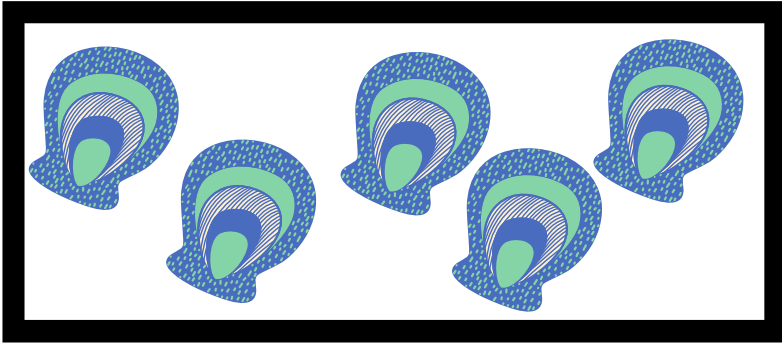

Réaliser une collection dont le cardinal est donné. Utiliser le dénombrement pour constituer une collection d'une taille donnée ou pour réaliser une collection de quantité égale à la collection proposée.

Avoir compris que tout nombre s'obtient en ajoutant un au nombre précédent et que cela correspond à l'ajout d'une unité à la quantité précédente.

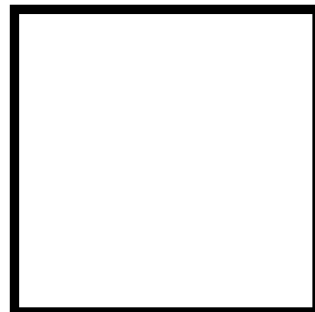

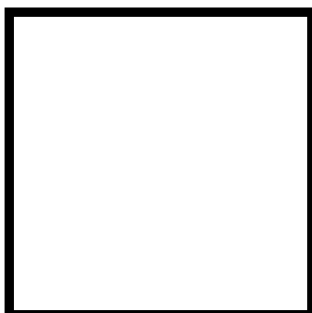

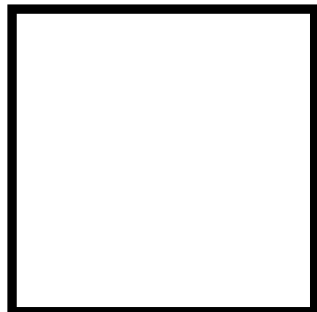

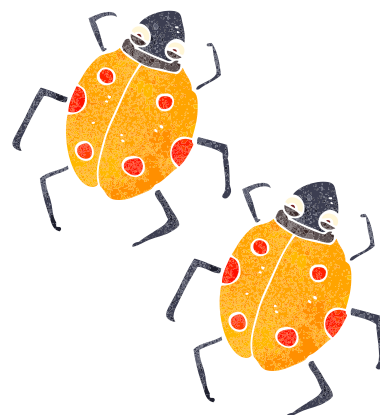

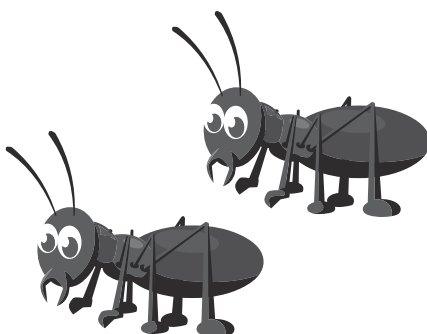

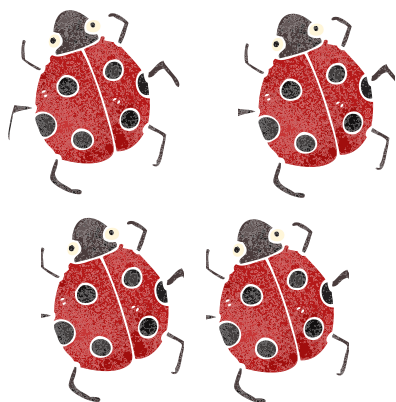

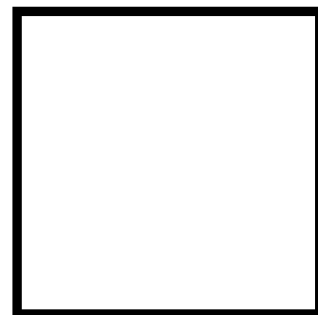

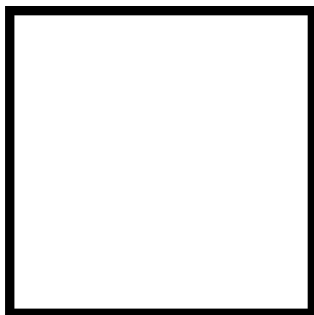

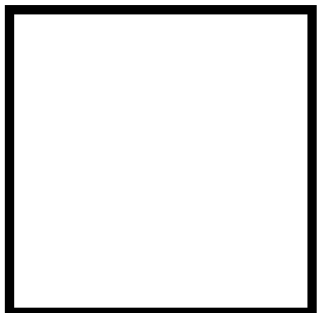

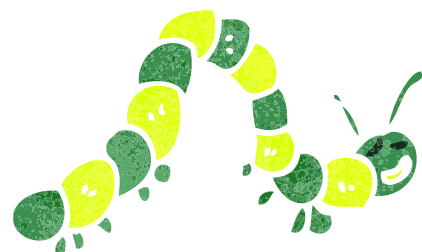

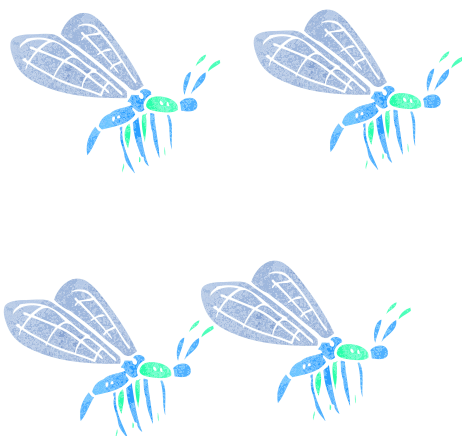

je dénombre de 1 à 5 .

Compte et relie chaque bloc au nombre correspondant .

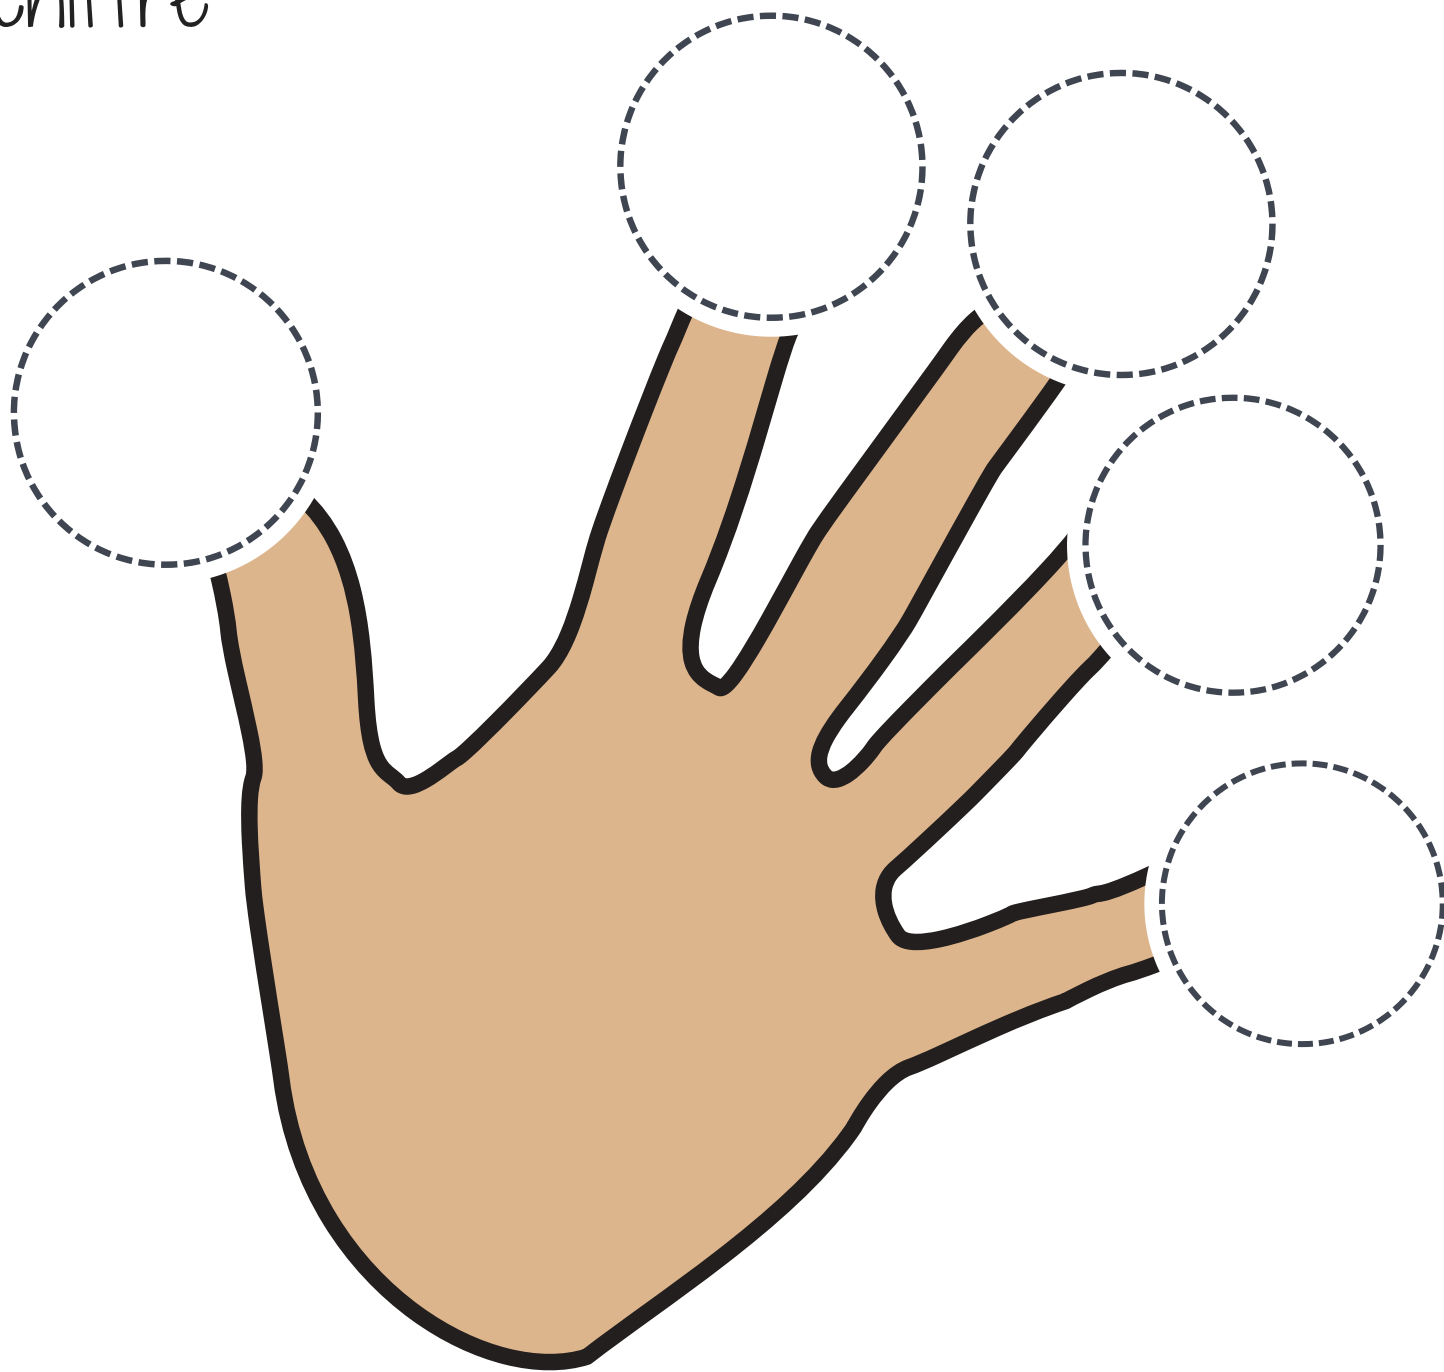

compter de 1 à 4.

Compte les éléments de chaque tableau et écris le chiffre qui correspond à l'étiquette.

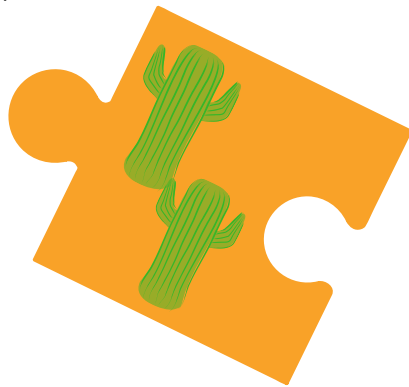

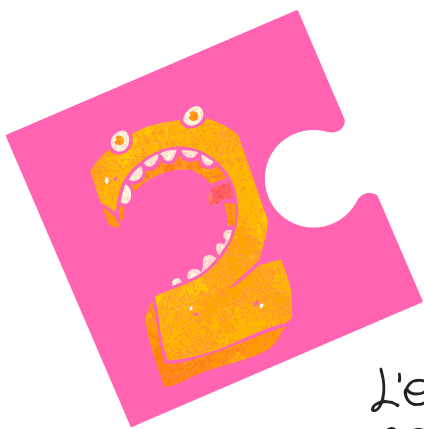

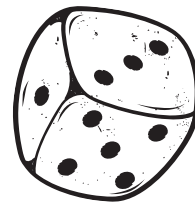

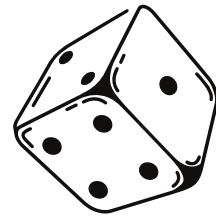

Combien de doigts as tu?
decoupe et colle les chiffres
correspondant aux doigts ou écrit le
chiffre

Les nombres mélangés

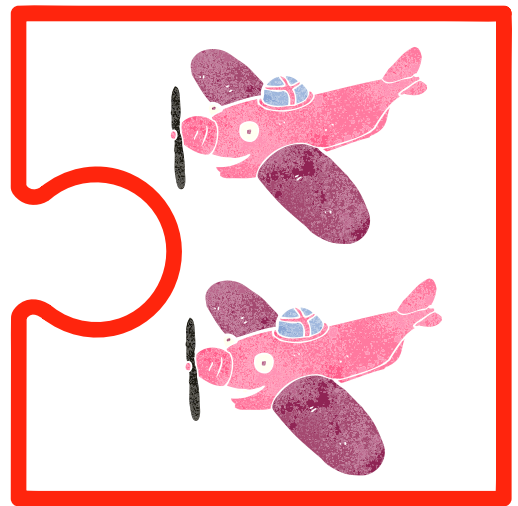

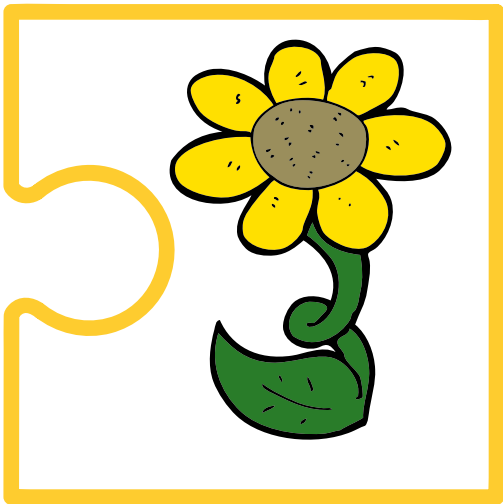

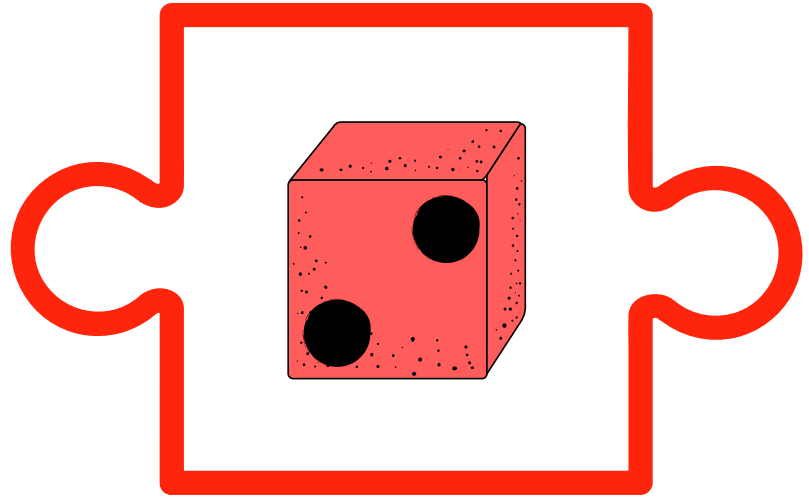

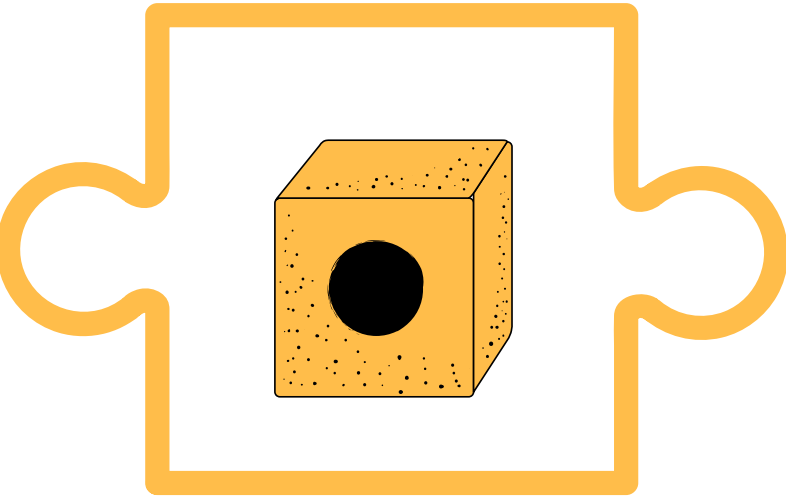

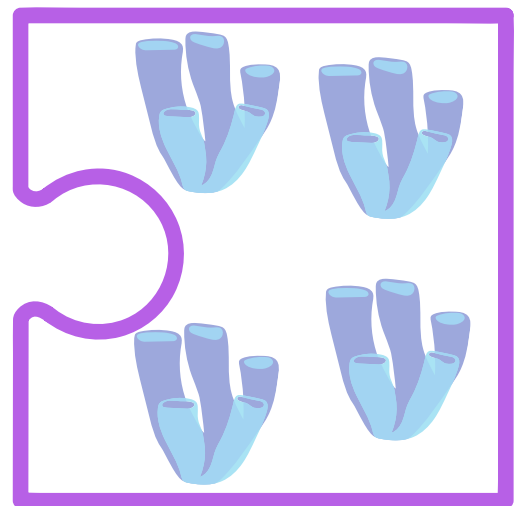

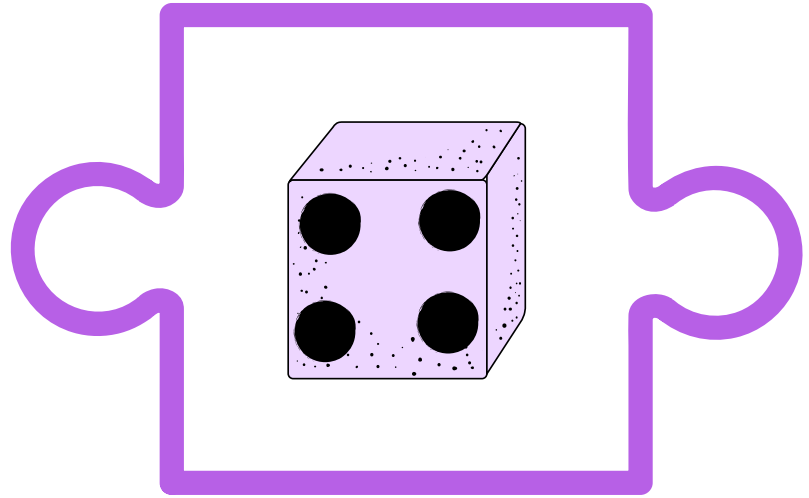

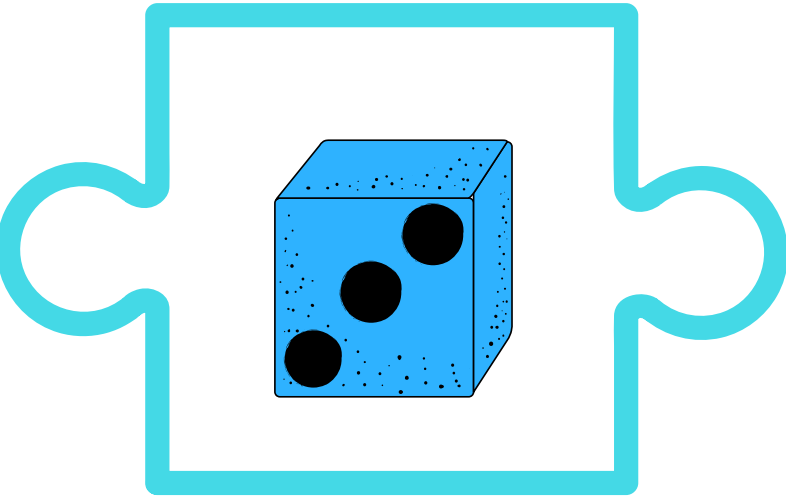

Une fois appris les nombres 0-10 maintenant, donc je voulais faire des puzzles de correspondance de nombres. vous pouvez les mélanger et les utiliser pour que les enfants s'entraînent à retenir les chiffres. Chaque puzzle a un numéro sur une pièce du puzzle et l'autre pièce du puzzle est le nombre correspondant.

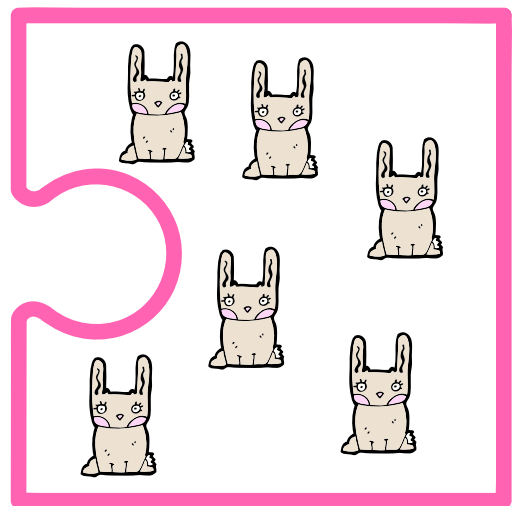

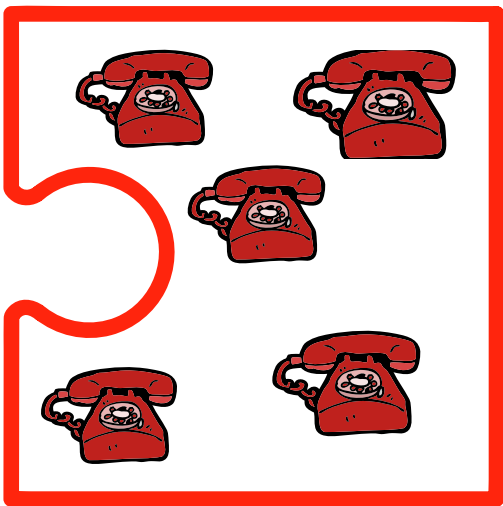

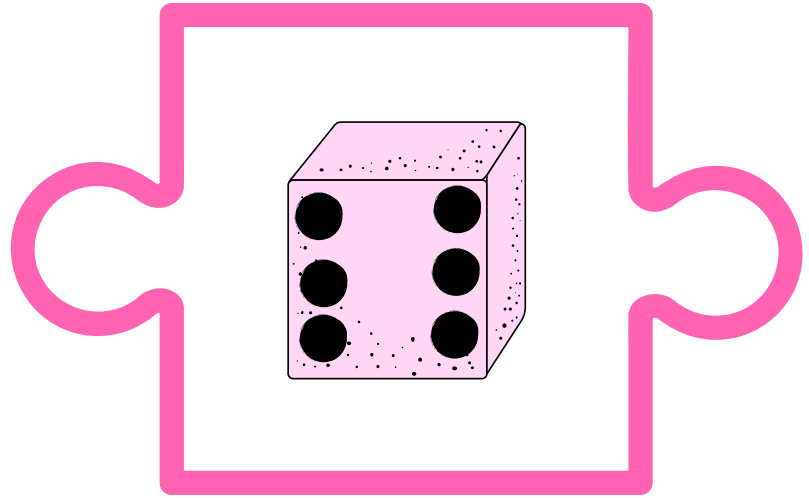

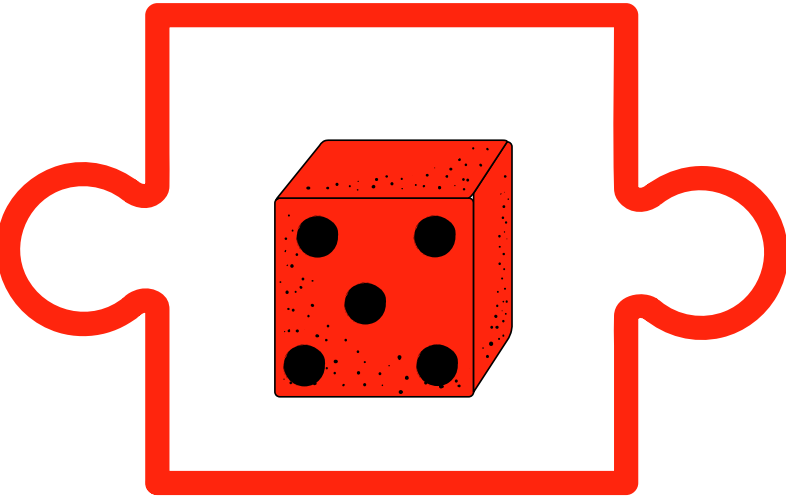

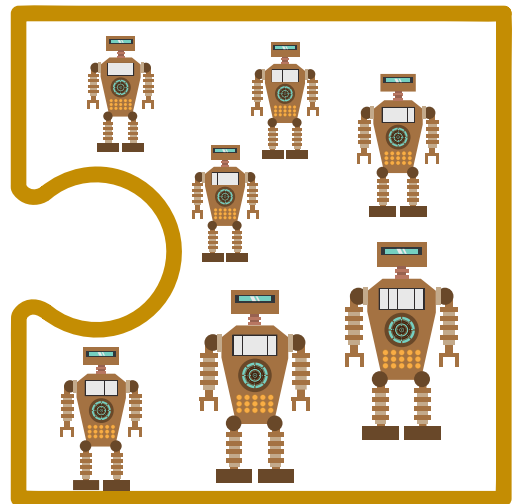

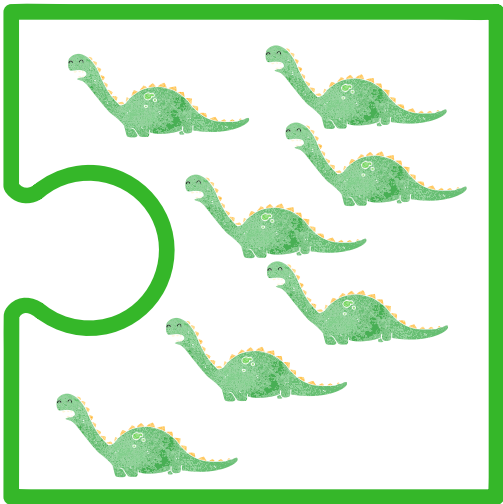

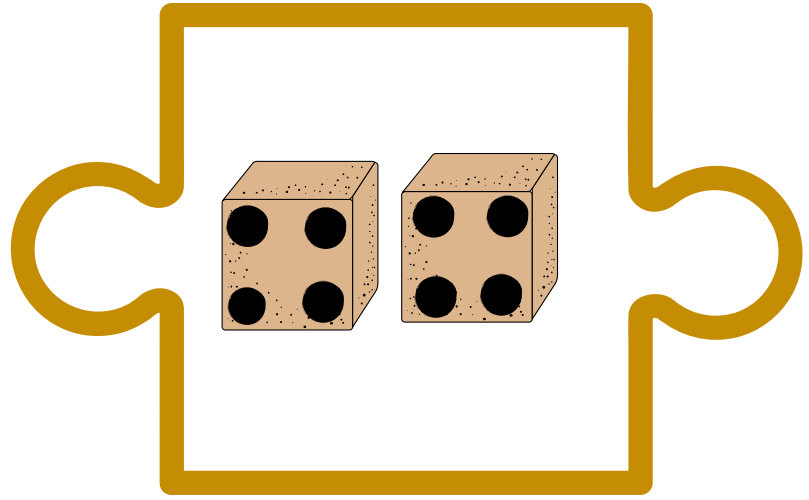

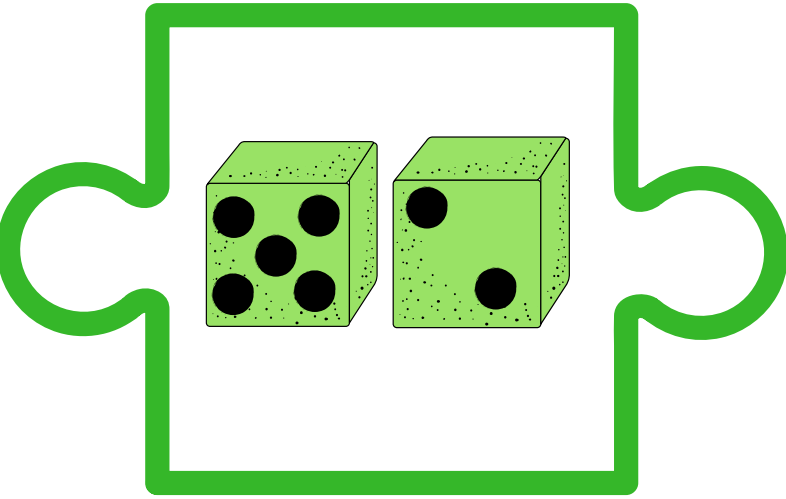

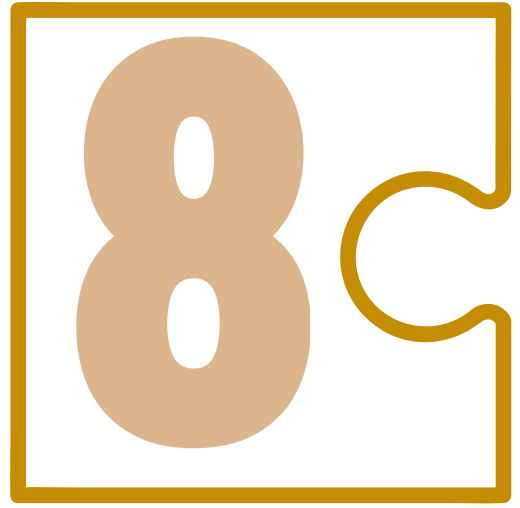

L'enfant choisira un nombre et trouvera le nombre correspondant aux dessins. Le numéro zéro a une image d'un coffre de jouets vide. Si votre élève en est aux premières étapes de l'apprentissage de son numéro, limitez les sélections à moins de 5 numéros à la fois et augmentez à mesure que ses connaissances augmentent.
