

# Au supermarché

Jeux d'observation, de comptage,  
d'attention et de logique

A partir de 4 ans

Pour chaque jeu, imprimez, découpez puis plastifiez les cartes et différents éléments

Prévoyez une pochette ou une boîte pour ranger les étiquettes et éléments !

Les jeux des pages suivantes peuvent être joués seul ou à plusieurs.

Ils permettent de développer le sens de l'observation, de la logique mais aussi l'attention et la concentration des enfants.

Lorsque les enfants commencent à mémoriser les listes par coeur, inventez-en de nouvelles !

# Le petit lynx des courses

- Inspiré du jeu de société du même nom, le petit lynx des courses peut se jouer seul ou à plusieurs (ou même en équipe).
- Les cartes "articles" sont éparpillées sur la table face visible.
- Une personne désignée (adulte meneur de jeu ou enfant qui ne joue pas) tire une carte liste de courses et annonce chaque élément en disant : "il me faut..."
- Les joueurs doivent trouver l'élément le plus vite possible et le mettre dans leur caddie.
- On peut aussi jouer sans liste. C'est alors le meneur de jeu qui décide de sa liste.
- Lorsqu'on joue à plusieurs, le gagnant est celui qui a le plus d'articles dans son caddie.
- On peut aussi enchaîner plusieurs listes.

Imprimez, découpez et plastifiez les charriots

# Range les courses au bon endroit de la maison

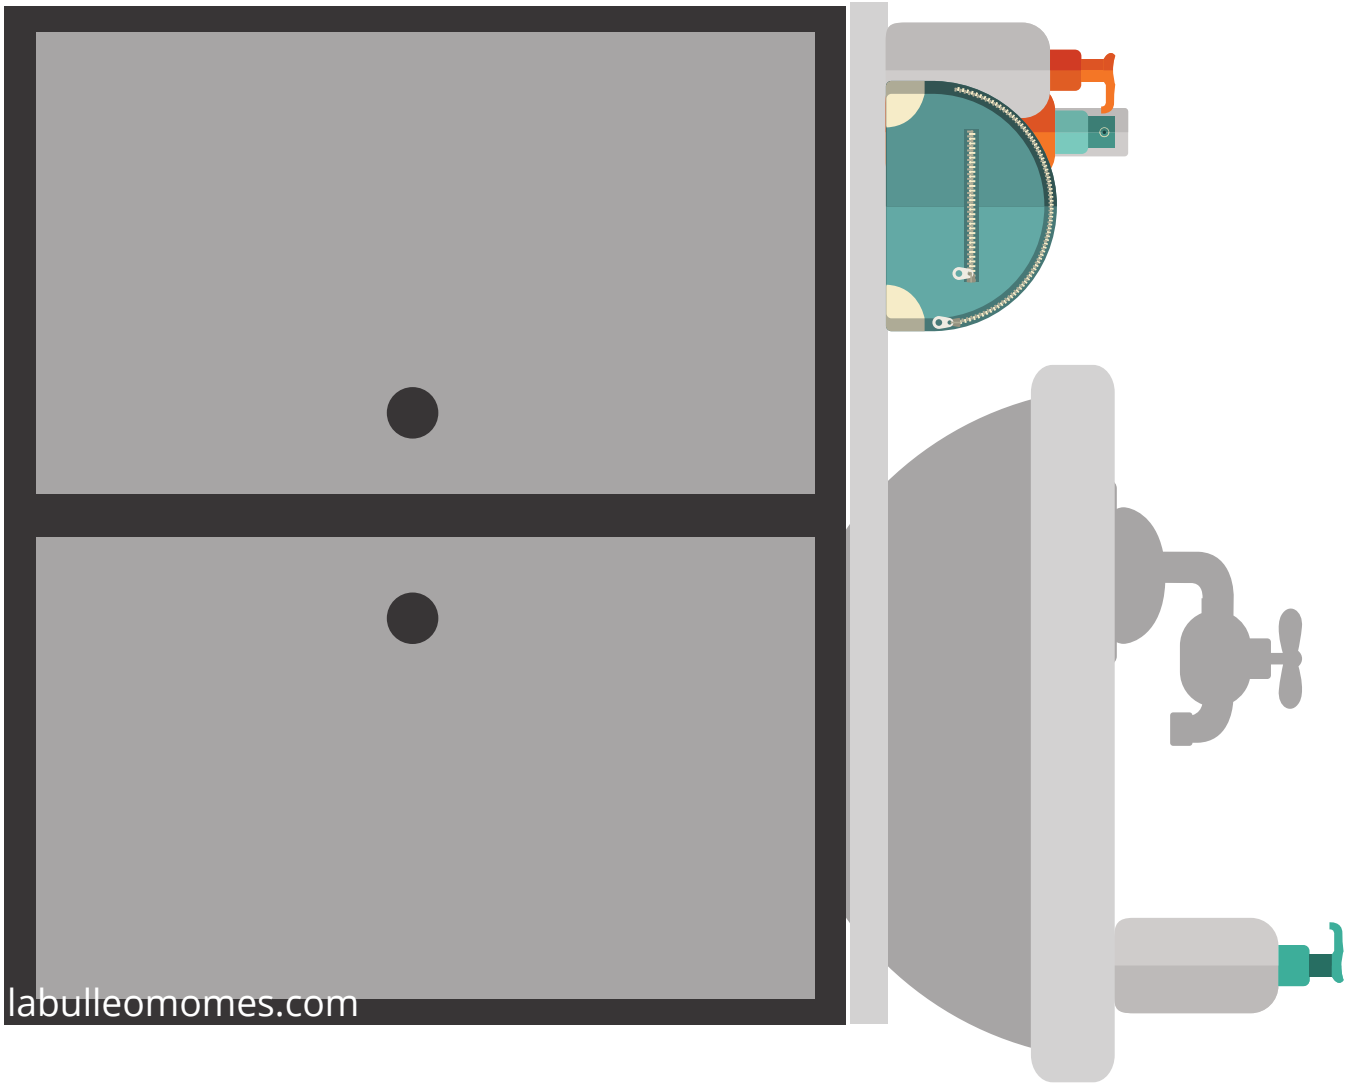

Imprimez, découpez puis plastifiez les rangements et les étiquettes

Ce jeu peut se jouer seul ou en coopération sans gagnant ni perdant. L'enfant doit ranger les articles au bon endroit : le placard de la salle de bain, le bureau, le frigo, l'armoire ou le placard de la cuisine.

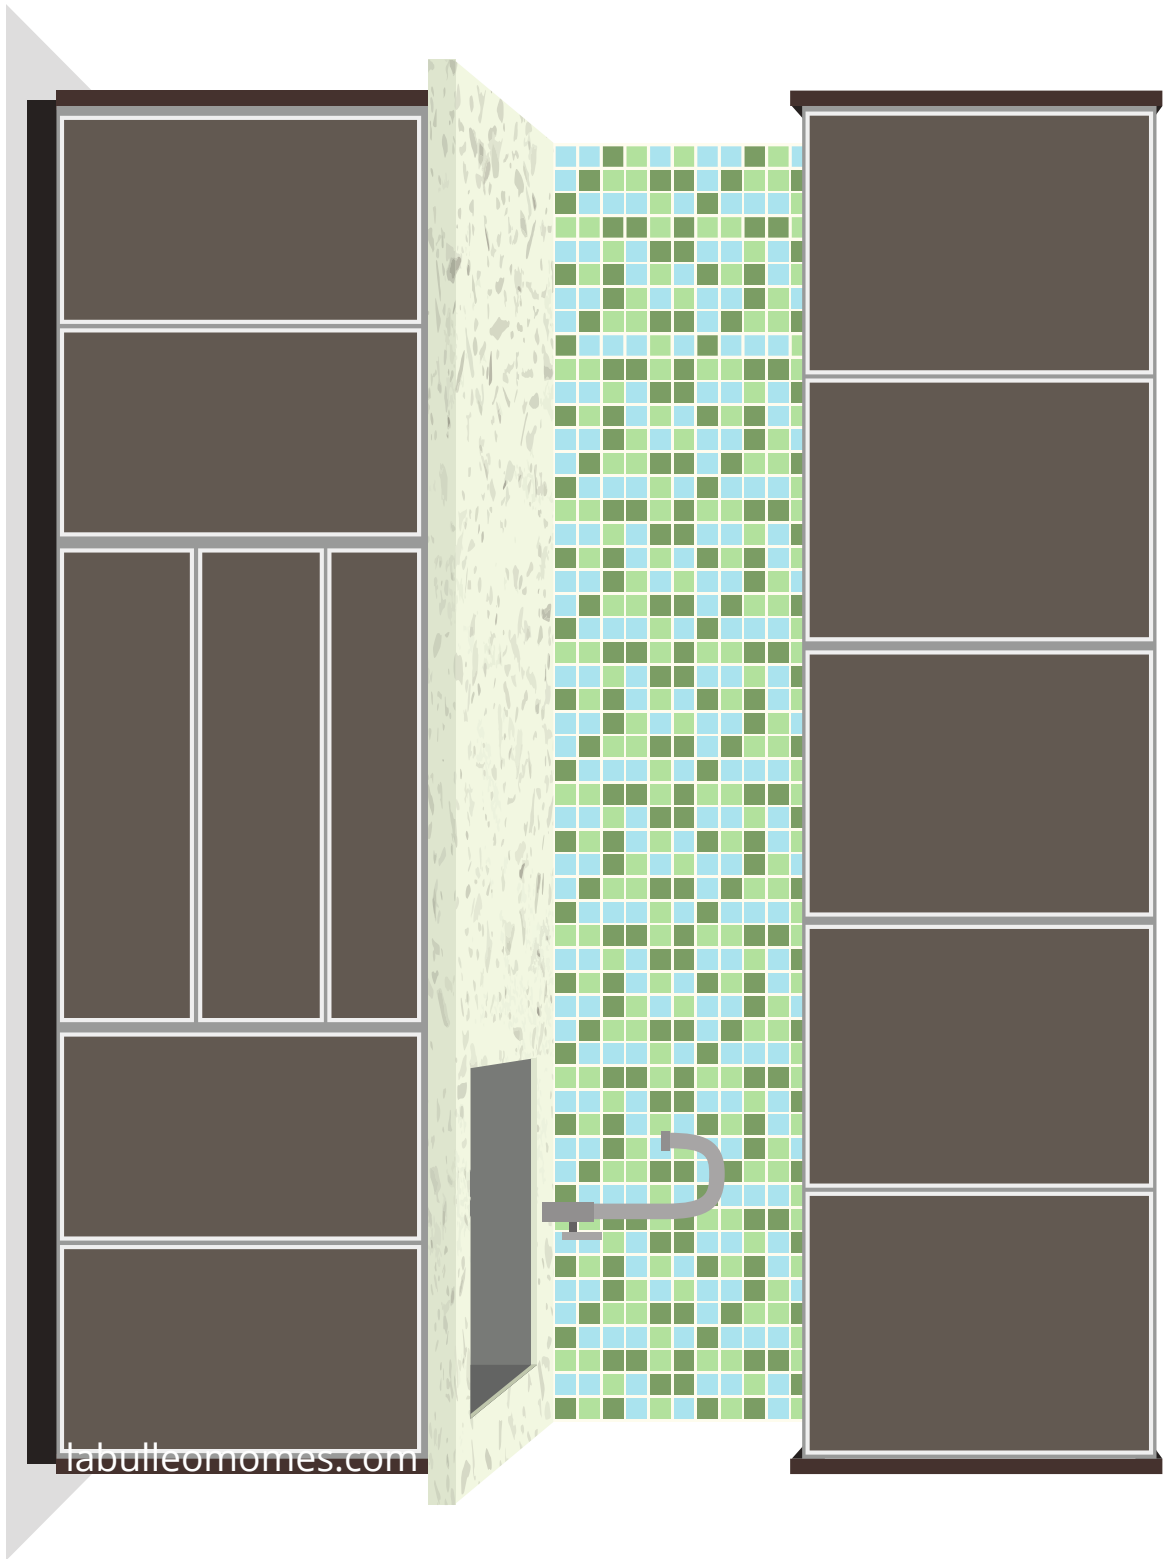

Demandez lui simplement de poser les étiquettes illustration sur le bon rangement.
